Builder of teams to make great things happen at scale.

THINGS I'VE DONE

Engineering Manager
Shopify
May 2022 - Present: Remote from Portland, OR

Joined Shopify's Ecosystem group, tasked with helping third-party developers growth their business on Shopify. Owned Shopify App Store ads business, growing yearly revenue by 40% by adding additional ad surfaces, user targeting, increasing effectiveness of ad relevance algorithm, and introducing real-time metrics.

Worked with third-party developers to grow their business on Shopify's App and Theme Store. Managed team of engineers of mixed skill levels, coached junior engineers to senior. Contributed technically to high performant auction endpoint and large scale data pipeline in ruby, and complex typescript/react frontend application for managing ads.

Co-Founder / Co-Director
Power the Polls
June 2020 - Dec 2021: Remote from Portland, OR

Lead a collaboration of nonprofits and corporations to recruit 250,000 new poll workers for the 2020 Election to fill the gap caused by COVID-19.

In four months onboarded, hired, and lead a product team to create a recruitment funnel to connect applicants with their election administers. As co-director ran stakeholder steering committee meetings and acted as organizational spokesperson with national media and elected officials.

From launch in July through November, recruited over 710,000 interested poll workers with the help of over 160 corporate and civic partners. Featured in the Daily Show, TIME, Washington Post.

Engineering Manager
Zapier
Feb 2018 - Present: Remote from Portland, OR

Joined as a Backend Engineer on the Partner Engagement Team and build a user management tool for dev platform in Django and ReactJS.

Transitioned into management in February 2020 as the Team Lead of the Email Team, responsible for orchestrating data pipeline into email marketing platforms. Transitioned to Engineering Manager of Explore Team, leading a team of six engineers responsible for scaling and optimizing SEO growth strategy.

Co-Founder / President
Pizza to the Polls
Nov 2016 - Present: Remote from Portland, OR

Founded in 2016 to feed voters waiting at Polling Places - raised over $40,000 to send more than 2,000 pizza to hungry voters in three days. In 2018 scaled to raise over $384,000 and send 11,000 pizzas and in 2020 to raise nearly $1.5M and sent 70,000 pizzas along with deploying food trucks in 28 cities across the country.

Lead organization through expansion and fundraising, acted as spokesperson, architected and developed of pizza ordering platform. Featured on Good Morning America, Buzzfeed, People, NPR, and the New York Times.

Co-Founder
MoodMonitor
January 2016 - August 2020: Portland, OR

Created to help doctors prescribing ketamine monitor patients suffering from treatment resistant depression. The web app sent patients daily text messages asking how they felt - along with other clinically verified surveys - and graphed patient responses alongside their treatment for their doctor to review.

Scaled the business to 60 clinics in the US and UK and produced patient charts featured on CNN and at the American Society of Ketamine Physicians annual conference.

Sold to Osmind in 2020.
